

INJAZ Pakistan at Agha Khan Jamat Khana

INJAZ Pakistan recently conducted Entrepreneurship Master Class at the Agha Khan Jamat Khana in Karachi.

Entrepreneurship Master Class introduces students to the concept of entrepreneurship, of what is involved in setting up and running a business, and an understanding of the skills, attitudes and behaviors of entrepreneurs. Students from Gilgit-Baltistan enthusiastically participated during the sessions and pitched innovative business ideas.

INJAZ shakes hands with British Asian Trust

INJAZ is partnering with British Asian Trust (BAT) on project that aims to empower women through training in financial literacy and entrepreneurship, introduction to self-representation and social skills as well as orientation to micro-finance. The first quarter training has already commenced and students are exhibiting a keen desire to get up-skilled and participate to set economically empowered nation.

Innovation Camp at the Indus Hospital

INJAZ Pakistan in alliance with Citi Foundation conducted a one-day Innovation Camp at the Indus Hospital. There were approximately 70 talented students in attendance from different O and A' Level institutions. Our volunteers conducted the session and guided the students through the challenging tasks. INJAZ team received a very positive feedback from the students.

Train the Trainer- Volunteer Training

INJAZ Pakistan conducted volunteer training for its volunteers. Professionals from different organizations attended the session and showed their willingness to volunteer for INJAZ Pakistan's upcoming project. Our previous volunteers also shared their experience of working with INJAZ.

Superhero of the month

Mr. Husnain Ali, proprietor and senior manager operations at Variantec an IT, Tech and digital solutions company. Hasnain has devoted his time to engaging our youth at Indus Hospital for the training on Innovation Camp, his enthusiasm thoroughly engaged the participants while his experience enriched their learning. Hasnain shared his knowledge with students

We are thankful to him for creating a positive impact on our youth. We wish Hasnain Ali the best of luck in all the future

Featured Alumni

YANN is the business venture established by the students who are enrolled in a diploma of Air conditioning and refrigeration repairing. The business idea is to repair air-conditioners and refrigerators. They have the knowledge, experience and also developed their interest in the particular field. Almost every household has a refrigerator which needs to be repaired/serviced after a specific period of time, thus YANN will fulfill their needs. The target market for YANN is anyone who owns refrigerators and air conditioners.
